Lumenal Lighting Begins LED Lighting Upgrade Project with OpTerra Energy Services for the Hawaii Department of Education's Ka Hei Program

MOUNTLAKE TERRACE, Wash. – June 16, 2015 – Lumenal Lighting recently audited and designed lighting upgrades for 80 schools as part of the Hawaii Department of Education's Ka Hei program, a five year endeavor that will integrate innovative energy technology with meaningful learning experiences, all while reducing energy costs. As part of this project, Lumenal Lighting has been contracted by OpTerra Energy Services to perform a complete LED lighting upgrade at two elementary schools on Oahu.

Lumenal Lighting has operations in Washington, Oregon and Hawaii. Founded in 1980, Lumenal Lighting delivers a full range of lighting services and products to commercial, industrial and institutional clients. The privately held company provides lighting design, installation, maintenance, retrofit/upgrade and recycling services. Lumenal Lighting's skilled team helps customers increase energy efficiency and enhance the appearance, functionality and safety of their interior and exterior environments.

Lumenal Lighting is an active member of the Professional Lighting and Sign Maintenance Association (PLASMA), the Building Owners and Managers Association (BOMA), and the Master Builders Association (MBA). The company is a licensed recycler and strives for 100% recycling. More information is available at www.lumenal.com.
