

LUMINAL
LIGHTING®

FIGHTING VIRUSES WITH UV LIGHT DISINFECTION

Right now, we are all looking for a fast and effective solution to disinfect potentially contaminated environments, especially in any high traffic or critical infrastructure locations, such as hospitals, clinics, assisted living communities, schools, prisons and transportation hubs.

Health's Cleanse® Series was created to protect people's health and wellness while combating spreads of common contagions. By employing specially designed ultraviolet (UV) technology, the Cleanse® sanitization process eliminates up to 99.9% of germs, bacteria, and viruses by modifying and destroying their genetic material (DNA/RNA) preventing further replication.

CLEANSE® TOTE

The Cleanse® Tote provides a quick and easy method to clean and sanitize your personal belongings, creating a safe and effective way to protect against germs, bacteria and viruses.

Equipped with ultraviolet (UV) LEDs, the Cleanse Tote employs a 3-minute, chemical-free cleaning cycle, which deactivates up to 99.9% of harmful pathogens. The portable case is a simple, safe and effective way to prevent from spreading germs and bacteria and protect against unwanted illness and disease. [Learn more](#)

CLEANSE® DOWNLIGHT

Simply unscrew the existing light from your 6" recessed light, remove existing trim (if applicable), screw in the Cleanse® Downlight, push it in place and flip the switch to start the eradication of pathogens. Equipped with built-in far-UVC light, the Downlight delivers an appropriate dose of 222 nanometer light while inactivating over 90% of contaminants, based on the dosage, wavelength and distance described. Early studies* indicate no harm to humans from far-UVC exposure. [Learn more](#)

CLEANSE® 2X4 TROFFER

Cleanse® Retrofit Troffer utilizes a combination of air filtration with UV (A+C) light to sanitize air, inactivate pathogens, and decrease contamination while providing comfortable healthy light to illuminate the work space. Easily retrofit any existing standard 2 ft x 4 ft luminaire in as little as 15 minutes to an air sanitizing LED luminaire with the Cleanse Retrofit Troffer without breaching the plenum keeping facility disruptions and installation cost at a minimum. [Learn More](#)

CLEANSE® CABINET

The Cleanse® Cabinet is a heavy duty cleaning station that offers onsite sanitization for these items, as well as small medical instruments, to protect against the spread of germs, bacteria, and viruses. Armed with multiple ultraviolet (UV) technologies, the Cleanse Cabinet's quick 5-minute sanitization process can inactivate up to 99.9% of harmful pathogens. [Learn more](#)
